

# N/V Cherry

---

Alcohol label %: 10.0 | pH: 3.8 | Acidity (TA): 12.0 | Residual Sugar (g/L): 7.0

---

## Winemaking

Composed of 60% Montmorency cherry wine and 40% Balaton cherry wine.

Balaton and Montmorency cherries are used in order to capture the essence of Northern Michigan cherries. Fresh and fruity with ample sweetness. Cherry pie in a glass.

## Aging

Fresh fruit is pressed during the summer cherry harvest. The juice is fermented in a cold tank to preserve the fruit forward profile.
