

N/V Soaring Strawberry

Alcohol label %: 11.0 | pH: 3.15 | Acidity (TA): 5.9 | Residual Sugar (g/L): 65.0

Winemaking

We approached this wine very delicately as the California version is our most popular wine and we wanted the NY version to closely match that and hopefully exceed it by bringing out a fresher strawberry taste. This was accomplished by selecting a blend of base wines that had bright acidity to them to make the strawberry flourish.

Food Pairing

Best enjoyed chilled, this wine makes a great match for a lazy summer afternoon; or pair it with light salads and sandwiches, mild cheeses and fruity desserts!
