WINEMAKING

VINEYARD

The 2025 growing season began with a wet, cool May, but was ultimately defined by a hot, dry summer (rainfall from mid-June to mid-August was less than 50% of normal) with low disease pressure and high sugar accumulation.

HARVEST

Harvest began early, yielding unusual red grape ripeness and high-quality white wines, making it a promising vintage overall.

WINEMAKING

Wagner Ice wines are gently pressed from frozen grapes, coaxing the juice out while leaving the water behind as ice crystals. The result is an indulgently sumptuous dessert wine.
